

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jgo-20-600	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	OK, we would like, but we can just share part of the data because of patient privacy.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	As long as it doesn't involve patient privacy, and it won't affect our subsequent experiments, we will share.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We can share the research protocol, statistical analysis protocol, informed consent and bioinformatics analysis method
5	When will data availability begin?	The availability will start from the publication of articles.
6	When will data availability end?	It will last two years after publication of article.
7	To whom will you share the data?	Anyone who are interested in this article and related research.
8	For what type of analysis or purpose?	We can provide the analysis method and published data of this article to other researchers for reference or further data analysis.
9	How or where can the data/documents be obtained?	Other researchers can write to the author asking for or quoting the data and methods in this article.
10	Any other restrictions?	No.
