

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jgo-21-105	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data in particular will be shared, we also found ¹³¹ iodine labeled drug-eluting microspheres could become a new material for TACE, and this method was safe and effective.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	The liver surgeons, interventional surgeon, drug-eluting microsphere researchers who are interested in TACE.
8	For what type of analysis or purpose?	For analysis to evaluate the safety and treatment effect of TACE with ¹³¹ iodine labeled drug-eluting microspheres.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: cd_mayu@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
